# Student Networking and Inter Professional Session (SNIPS)

Regular Student Networking and Inter-Professional Sessions (SNIPS) for students from all health related disciplines

The aim of the **SNIPS** is to present information on topics that students may be interested in; focusing on inter-professional, person centred care. It is also an opportunity to network with students from other areas and other universities and to share placement experiences.

The sessions are open to all who are interested. Bookings not required. Light refreshments provided.
