Facilitating Clinical Learning

Pauline Hill and Leeanne Pront

Who should attend

This program has been developed for Registered Nurses and Midwives who work with students from all universities on placement. All Educators, Facilitators and Preceptors who wish to learn more about encouraging clinical learning will benefit from the workshop.

About this workshop

This workshop aims to further develop your knowledge and skills to facilitate clinical learning in relation to issues that impact work integrated learning (WIL).

Aims and Objectives

The workshop is interactive and will include:

- Exploring the facilitator and preceptor roles in clinical learning.
- Increasing feedback skills and communication strategies.
- Facilitating challenging learners and contexts.

Learning Outcomes

- To explore the role of the Registered Nurse in facilitating clinical learning.
- To further develop theory & practice underpinning clinical learning.
- Discuss strategies to assess and develop clinical learning.
- Develop skills in providing constructive feedback.
- Understand the resources available for both student and staff to assist with students in the clinical practice setting.
